

Make a felt finger puppet

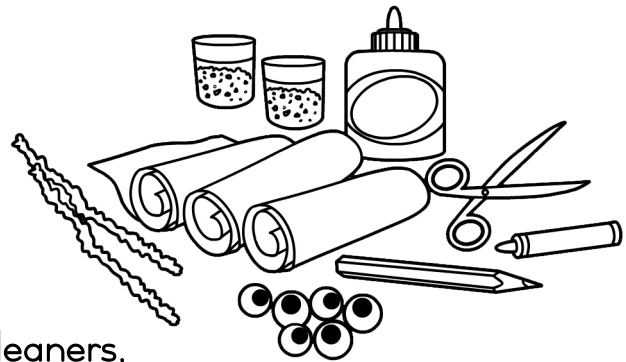

Name: _____

Get creative and make a finger puppet!

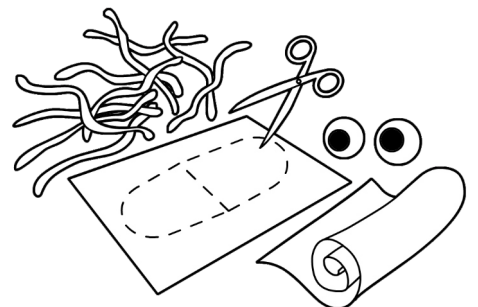

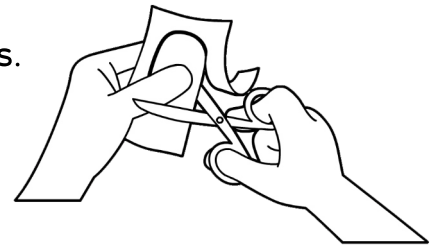

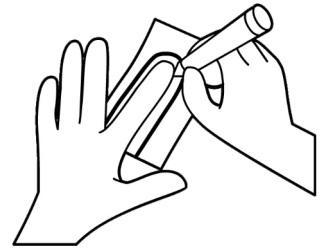

You will need the following:

- Different colours of felt material
- Glue paste
- A pair of scissors
- Decorations like 'googly eyes', pipe cleaners, glitter, wool, etc.
- Pencils

What to do:

- Place your finger on the felt material and use the pencil to trace around your finger. Leave enough space for gluing. Place the felt onto a second layer of felt.
- Cut both layers of felt following the traced finger lines.
- Glue the edge sides of the felt material together. Remember to leave enough space for your finger. Do not glue it at the bottom.
- Decorate your puppet.

Let your friend assess your puppet after you create it using the assessment rubric. Assess your friend's puppet, too.

The finger puppet belongs to:

My name is:

It looks like a finger puppet.

The finger puppet fits.

The finger puppet is neat.

It is a creative finger puppet.

My friend listened and followed the instructions.
